

**Research Assistant I (Ref: 2300804)**  
**Department of Mathematics and Information Technology**

**Project title: Ultra-Reliable Low-Latency Communications for Vehicle-to-Everything: From Theory to Practical Implementation**

**[Appointment Period: 6 months]**

The appointee will be responsible for supporting the Principal Investigator (PI) in the four-year research project on wireless communications. He/She is expected to assist the PI with research and publications. The appointee may propose research topics of interest and conduct relevant research under the PI's supervision. Collaboration with scholars from local and overseas universities may be required. The appointment will be for a period of 6 months with the possibility of renewal subject to mutual agreement.

Applicants should have a Bachelor's Degree in a related field.

For further enquiries about the post, please contact Dr. Tse-Tin Chan at [tsetinchan@eduhk.hk](mailto:tsetinchan@eduhk.hk).

---

Salary will be commensurate with qualifications and experience. Fringe benefits include leave and outpatient medical benefits.

The University only accepts and considers applications submitted online for this post. Applicants should complete the [online application form](#) and upload a full CV. **Review of applications will start from 25 July 2023, and will continue until the post is filled.** Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes. For details of the Personal Information Collection Statement, please refer to <http://www.eduhk.hk/jobsopp/index.php?glang=en>.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted. The University reserves the right not to fill the position(s) advertised.

Further information about the University is available at <http://www.eduhk.hk>.
